INSTRUCTIONS

1. In answering these Requests, you are required to furnish all information that is known or reasonably available to you, including information that is in your possession, custody, or control or in the possession, custody, or control of your attorneys, officers, agents, and employees.

2. You must produce documents as they are kept in the usual course of business or organize and label them to correspond to the requests. All electronically stored information (ESI) is to be produced as .tiff images with extracted text files and a load file.

3. If any of the requested documents were, or no longer are, in your possession, custody, or control, state the name, address, and telephone number of the present custodian of each document, or state whatever disposition was made of each document. Each document produced is to be produced in its original form or other container with all file labels, indices, tables of contents, summaries, or other organizing materials intact.

4. For each Request, the City's response must be either to produce responsive documents or state an objection to the Request, including all reasons for

the objection. An objection to only part of a Request must specify which part is objected to, and you should produce responsive documents to every other part of the Request and specify whether any documents are being withheld on the basis of that objection. If you object to any term in a Request as vague or unclear, you should assume a usual and reasonable meaning for the term, explain the meaning you are assuming, and respond to the Request.

5. If the City asserts a claim of privilege as to any documents sought by these Requests, for each privileged document, state the following:

- a. The type of privilege being asserted;
- b. The identity of any person who created, made, received, or is in possession of the document;
- c. A description of the document sufficient to enable Plaintiffs to assess the claim; and
- d. The basis upon which the document is asserted to be privileged from production.

6. The City is under a duty to amend and/or supplement a prior response if the City obtains information upon the basis of which: (a) the City knows that the answer was incomplete or incorrect when made; or (b) the City knows that the answer, though complete and correct when made, is no longer complete and correct.

7. These Requests are continuing in nature and responses must be amended and/or supplemented as further information becomes available.
